

## Mission Possible

Complete the following tasks with your group before the music ends. You can complete the tasks in any order that you'd like. HOWEVER, groups can only move onto the next task once all members of the group have completed the current task.

Each person in the group, spell one of your middle names using your entire body.

Create a team cheer, using the words "ABC - We are ABLE; We BELONG; We CARE".

While holding hands, jump up and down 5 times.

Each person touch their own body parts below in the following sequence.  
*Repeat sequence 2 times:*

Head  
Shoulders  
Knees  
Toes

Together as a group, touch five things that are green.

Create a team statue of a physical activity.

Line up in single file and pass an object over and under until it has been passed all the way down your line.

Move to each corner of the room. In each corner, stand up and stretch to the sky then sit down cross legged on the floor three times.

In your group, line up in order of birthdays starting in January.
